

Triton-affordable and durable hard armor for EMS

A 2019 EMS World Innovation Awards finalist, the Triton from Armor Express is a steel plate measuring only .21" thick and weighing 6.3 lbs in a 10x12 SH configuration. It is certified to NIJ 0101.06 Level III with a III+ rating, as well as the 2018 DEA protocol. This hard armor solution can fit into the rifle plate pocket of a plate carrier or a compatible overt carrier and has a 10-year warranty.

For the safe and effective transport of infants and children in an ambulance

ACR-4 Ambulance Child Restraint

The Quantum ACR-4 (Ambulance Child Restraint) is an innovative, flexible, and fully adjustable harnessing system for the safe and effective transport of infants in an ambulance, and is color-coded for easy selection in 4 sizes (X-Small 4-11 lbs, Small 11-26 lbs, Medium 22-55 lbs, and Large 44-100 lbs). Quick release clips dock with the ACR harness, holding the patient in place to prevent potentially dangerous movement during transportation.
